HIGH SCHOOL DIPLOMA

3 WAYS TO EARN YOUR DIPLOMA

1. WALLINGFORD ADULT HIGH SCHOOL CREDIT DIPLOMA

The Credit Diploma Program offers adults the opportunity to earn a high school diploma. Participants may earn credits through a combination of afternoon courses, documented work or training experience. Credits may be transferred from public or private high schools and state technical high schools. To receive this “traditional” diploma, you must earn 20 credits, including those you may have earned at your former high school. The Wallingford Adult High School Credit Diploma Program offers small classes and online courses. When all credits are completed, of which four must be in English, three in mathematics, two in science, three in social studies (including U.S. history and civics), and one in Vocational Education Arts, a diploma will be awarded. The program is open to all people who are at least 17 years or older, do not hold a high school diploma, and are no longer officially enrolled in high school. For more information about this diploma option, please call the Adult Education School Counselor at the Learning Center, Monday through Thursday between 3:30 and 6:30 p.m.

2. NATIONAL EXTERNAL DIPLOMA PROGRAM (NEDP)

Earn a Wallingford Adult High School diploma independently, through the successful completion of a series of assignments in a computer based format. Through this option students earn their high school diploma independently through the successful demonstration of life skill competencies as well as an individualized competency. You will meet with an assessor periodically to help you reach your goals. NEDP is recommended for those 21 years of age who have acquired some of the life skill experiences needed for successful completion of the program.

This program prepares adult learners to pass the four-part, computer-based GED® exam to earn a State of Connecticut high school diploma. Students receive necessary instruction in each of four subject areas - science, social studies, math and language arts – plus the basic computer skills needed to take the exam. Instructors will also review the official website, ged.com, where students can access related exam information and exam registration procedures. To be able to register for the GED® exam, students must be at least 17 years old and officially withdrawn from school for six months. Many people want to secure a plan and know that they will not outlive their money in retirement, as the safety net of their job and salary will be gone. High medical expenses and the thought of running out of savings in old age gives people the jitters.
